

Signals and Systems

ENGR 3323

Dr. Mohamed Bingabr
School of Engineering
University of Central Oklahoma

Course Materials

Textbook: “Linear Systems and Signals”, 3rd edition by B. P. Lathi. ISBN: 978-0190200176

Course Website and Lecture Videos:
<http://www.engineering.uco.edu/~mbingabr>

Course Information

Instructor: Mohamed Bingabr, Prof. of Engineering

Office Location: HOH 221C

Phone: (405) 974 5718

Email: mbingabr@uco.edu

Course Meeting Time: MW 9:00 – 10:15 am

Course Meeting Location: HOH 205

Office Hours: MW 12:00 – 1:30 pm & by appointments

Grading Policy and Distribution

Attendance	10 %	A: 90-100
Homework	10 %	B: 80-89
Quizzes	30 %	C: 70-79
2 Tests	30 %	D: 60-69
Final Exam	20 %	F: 0-59

**Don't wait till the final day
to ask me what you can
do to pass the course.**

Signals and Systems

Course Expectations & Conducts

- Spend a total of 6 to 8 hours a week.
- Ask for help for homework but don't copy.
- You are allowed to have the formula sheet on the course website and 1 page of your own for quizzes and tests.
- You can not use unallowed resources during quizzes and tests.
- Makeup test will be given for emergency.
- Please don't use the **phone** or the **internet** during lectures.
- Be on time for the lecture and do your best to stay focus.

Course Topics

- Signals and Systems Characterization
 - Linear, Causal, Time-invariant, Stability, Digital
- System Modeling (Elect., Mech., or Biological)
 - Differential Equation
- System Analysis
 - Impulse response $h(t)$
- Time-domain Analysis
 - zero-input and zero-state responses
- Laplace Transform and Analysis
 - Transfer function $H(s)$
- Fourier Series Analysis of Periodic Signal
- Fourier Transform Analysis of Aperiodic Signal
 - Frequency response $H(\omega)$
- Sampling Theorem and Signal Reconstructions

To Do Well in This Course

- Focus on lectures & problems solved in the lecture.
- Do and understand the homework problems.
- Enjoy and reflect on the physical meaning of the equations and engineering concepts.
- Time management: study and do homework first then socialize and have fun.
- Use video resources in YouTube (Engineering with Bingabr)
